

ACTIVEFLOOR

INTERACTIVE LEARNING

TRANSFORMING

YOUR FLOOR INTO A DIGITAL INTERACTIVE LEARNING SPACE!

What is ActiveFloor?

ActiveFloor is an interactive floor where you use your feet to navigate & play the learning games on offer!

Newest Model! ActiveFloor Mobile Max

ActiveFloor Mobile Max consists of a mobile installation box with a projector, a computer and a motion-detecting camera that turns the (vinyl)floor projection into a touch-screen that can detect multiple objects.

It has an adjustable height, and you can make the floor bigger/smaller depending on your needs! It is able to provide the biggest floor projection size (3m x 1.9m).

Ceiling Mounted Version: ActiveFloor PRO 2

ActiveFloor PRO2 consists of a ceiling mounted installation box with a projector, a computer and a motion-detecting camera that turns the (vinyl)floor projection into a touchscreen that can detect multiple objects.

HOW DOES IT WORK?

With a login to ActiveFloor's/ SportsWall's Online Platform MyFloor/MyWall, you can develop games by using your computer/laptop. You decide your own content, subject, theme and age group it is tailored to! Unlimited Game Combinations! Add in your own images/audios/content to suit your lesson activities!

LIST OF GAME TEMPLATES FOR ACTIVEFLOOR & SPORTSWALL:

NOW EVERYONE CAN DEVELOP ACTIVE EDUCATIONAL GAMES IN OUR MYWALL UNIVERSE!

In the MyWalls international games library you can discover a plethora of educational games which are made in collaboration with teachers and pedagogues across the world. With the vast amount of game templates comes almost an infinite amount of game combinations.

OUR MISSION:

- ✓ To give children an equal approach to auditive, visual and kinetic learning.
- ✓ To foster creativity, teamwork, collaboration and communication.
- ✓ To make learning fun, inclusive and motivating.
- ✓ And to provide children of all ages the possibility to learn and develop
 - both intellectually, physically and socially
 - in a way that is the most natural for them: by using their whole body.
